Size: 22.75 cubic feet
Access: Open for research
Collection Number: Special Collections 63
Processed by: Penny Clark, Charlotte A. Holliman, and Kersten Baylor

BIOGRAPHICAL NOTE

Wanda A. Landrey is a historian whose work was strongly influenced by her roots in the Big Thicket of East Texas. Although she was born and raised in Beaumont, she was descended from early East Texas pioneers. As a child she spent much time in the Big Thicket visiting family and camping in the great outdoors. Her father entertained her with tales of the Big Thicket including lore of notorious outlaws who found the Big Thicket a place to hide from their crimes.

As she grew up, she followed a traditional path, graduating from South Park High School in Beaumont and then continuing her education at what was then Lamar State College of Technology where she earned a degree in history. Landrey married attorney Floyd Landrey, had three children, Leslie, Ricca, and Jed, and taught world history at Westbrook High School.

She returned to Lamar where she earned a masters in history. When it came time to write her thesis she remembered her father’s stories of outlaws in the Big Thicket and wrote, “Lawlessness in the Big Thicket,” which she was encouraged to revise and publish resulting in her first book, Outlaws in the Big Thicket.

Landrey continued to research topics relating to the history of the Big Thicket and Beaumont. Her works were distinct due to Landrey’s ample use of oral histories which Landrey took great joy in conducting. Landrey’s books include the following,

SCOPE AND CONTENT
The collection is chiefly composed of material collected by Landrey during her research for six local history books which document social history of the Big Thicket and Beaumont. Her collection is primarily composed of cassette tapes and transcripts of oral histories, as well as other papers including photographs, newspaper articles, photocopies of books, and correspondence.

Some material originally in the collection was transferred to other repositories. Interviews with Texas attorneys and other related material, unless directly related to the history of Southeast Texas, were transferred to the State Bar of Texas archives. Genealogical information on the Crews/Cruse family, and Clan MacQuarrie castle in Scotland were transferred to the Tyrrell Historical Library.
